# CREATE A DATABASE IN CLOUDANT DB

| Team ID	PNT2022TMID35146
Project Name	IOT based safety gadget for Child safety monitoring and notification

Aim: To create a database in Cloudant DB to store location data.

Steps:

- Logged in to IBM Cloud account

- Navigated to `./resources`

- Clicked on the "Create Resource +" button

- Searched for "Cloudant"

- Chose the "Lite Version" and clicked on "Create"

- The Cloudant database resource was created successfully

● Clicked on Launch Dashboard

● Clicked on "Create Database". Entered "sugan" as the database name and the "non-partitioned" option.

● The database "sugan" was created successfully

Result:

A database to store the location data was created successfully on Cloudant DB.
